

SHOWROOM PROMETAMA - TANGERANG

PANELLUX®
SCREEN CEILING
S100 & S200

PANELLUX® S100 & S200 offer ease of installation and provide both aesthetic and functional look to your ceiling. With panel dimensions of 100mm and 200mm high, it will give a minimalist and elegant ceiling look. It is ideal for interior and exterior ceiling applications such as terraces, corridors, canopies and lobbies in airport terminal buildings, ballrooms, shopping centers, showrooms, apartments, offices, factories and so on.

PANELLUX® S100 & S200 is made from Pre-painted ALUMINIUM. The installation uses the stringer frame with the Clip-Lock system without the need for bolts or screws.
